Kohls Autism & Related Disorders Program Presents - Overview of Autism

April 21st at CCE Oneida from 6pm to 8pm

\$10 holding-fee, reimbursed to those who attend. Payment confirms registration. One in 68 children are diagnosed with Autism Spectrum Disorder (ASD). What is it? How is it diagnosed? What strategies can I implement if I am caring for a child with Autism or have children with ASD in my class? These and many other questions will be answered at this workshop, helpful to those who work with infants, toddlers, preschoolers, and school aged children. The instructors come from the Margaret L. Williams Developmental Evaluation Center of the Golisano Children's Hospital. Mary Warren is an occupational therapist with over 30 years of experience working with and evaluating young children with special needs. Mardie Ninno is a special education teacher with over 35 years of experience working with infants, toddlers and preschoolers with special needs. OCFS 1, 2

Kohls Autism & Related Disorders Program Presents - Zones of Regulation

May 16th at CCE Oneida from 6pm to 8pm

\$10 holding-fee, reimbursed to those who attend. Payment confirms registration. The Zones of Regulation is a curriculum geared toward helping children gain skills in consciously regulating their actions, which in turn leads to increased control and problem-solving-abilities. This session will introduce the program and provide visuals and strategies for immediate implementation. Zones of Regulation will be the most help to those providers and teachers who work with older preschoolers and elementary school aged children. Participants should bring a glue stick and a pair of scissors. Limited spots are available for this training. OCFS 2, 3

A Resilient Road Will Lead to Self-Discovery and Mastery

July 13th at the Oneida Public Library from 6pm - 7:30pm

\$10 holding-fee, reimbursed to those who attend. Payment confirms registration. This will cover information on what we can do as early childhood educators to begin the healing from trauma. We can start by building positive relationships. We can include support for children and families and start teaching alternatives using healthy social and emotional development skills within the curriculum. Children can learn to be resilient if we as educators and nurturers can help foster a child's self-esteem. Please bring your favorite children's book with you to this training for activities.
