

Boosting early language & literacy skills is as easy as 1...2...3

1 Students get engaged in class

30-minute lessons use songs, stories, movement, and focused listening activities to build vocabulary, comprehension, listening, and other essential early language and literacy skills.

2 Families get involved at home

Every month, a robust Student Kit goes home with every child. Including a CD full of songs and sounds, a read-along story, a magazine full of activities, and an instrument (every other month), the Kits are designed specifically to make it fun and easy for families to extend the day's learning into the home.

3 Skills take off!

Research reveals the quantifiable impact of the program on students' vocabulary, listening skills, self-control, and comprehension.

See for yourself!

Contact the ABC Music & Me representative in your area to schedule a free demonstration class in your own school, with your own students!

The ABC Music & Me Start-Up Kit fills your classroom with instruments, stories, activities, and music!

- A Hosted CD leads every single lesson, so teaching is easy-prep and hands-free!
- Themed monthly units balance novelty with repetition and reinforcement to keep children involved.
- Picture vocabulary cards boost vocabulary, comprehension, memory, and pre-literacy skills.
- Instrument play advances listening, rhythm, sharing and turn-taking, self-control, and self-expression.
- ABC Music & Me is especially effective for students who are at-risk, who are English Language Learners, or who have special needs. Activity sequences welcome repetition, adaptations, and modifications – so teachers can easily match the program to the needs of their students.

A high-quality Student Kit goes home with every child, every month!

- A Home CD full of songs and sounds turns home time into an extension of “ABC time”!
- The Family Activity Guide features a read-along version of storytime, plus tips and tons of at-home activities to extend the day’s learning.
- And with an instrument going home every other month, a nice little play-along orchestra is building in every ABC Music & Me home as the year progresses.

“This is everything I wanted to do in terms of combining literacy and language development with engaging music and music activities! My students love it! And, you’ve done the research already and made this incredibly easy for me to teach with minimal preparation. Thank you!”

— Kindergarten/1st Grade Teacher,
Witter Elementary, Hillsborough County, FL

It’s on us!

We’ll come and teach a free class – in your own school, with your own students – so you can see the program at work with your own eyes!
