

The Infant Toddler Network Can Help Your Program!

- Are you searching for effective ways to deal with biting or other difficult infant or toddler behaviors?
- Would you like tips on effective ways to talk with parents about issues and concerns?
- Would you or your staff benefit from a free, on-site, multi-week technical assistance program to increase the quality of your program's infant or toddler care?
- Do you have questions about best-practice when caring for infants and toddlers?
- Would you like information about becoming a breast-feeding friendly certified site?
- Could your infant or toddler room use an arrangement make-over?

The Infant Toddler Network has experts available to help you increase the quality of care for the infants and toddlers in your program through free, on-site or over-the-phone assistance.
